

# CITY OF THREE RIVERS

March 24, 2020

My fellow residents of the City of Three Rivers, as your Mayor I would like to provide you an update of the City's preparations and response to COVID-19.

Beginning weeks ago, City staff and others began the process to identify and implement measures that would ensure Continuity of Operations and Vital Services for our community.

During this preparation process we have:

- identified mission essential staff
- divided staff between primary and alternate teams
- increased orders and supplies of necessary items
- checked with vendors to identify supply chain issues
- implemented social distancing among staff
- altered interaction at City facilities to safeguard staff and the public
- identified vulnerable populations and
- put in place important public safety orders

Although your City Team continues to prepare and respond to COVID-19, we need YOUR participation in keeping our community safe.

Please take measures for:

- social distancing of 6'
- eliminate unnecessary travel and outings
- wash hands for 20 seconds
- stay home when possible

Your help with these items today will ensure our community thrives tomorrow.

THANK YOU FOR DOING YOUR PART TO KEEP THREE RIVERS SAFE!

  
Felipe Q. Martinez City Mayor
